| <p>With this motion the Europe Committee aims at increasing the transparency and predictability of the income of the Europe Region.</p> <p>We are proposing the introduction of a new cap that will reduce the Europe Region's dependency on changes in membership and financial circumstances in the largest Member Organisations, thus supporting long-term planning both for the Europe Committee and for the MOs affected by the introduction of the cap.</p> <p>With the introduction of this new cap, the income of the Europe Region will be slightly reduced, but will remain at a level where we can continue our value proposition of being a hub for Guiding and Scouting in Europe, and deliver on capacity building, external relations, programme and events.</p> <p>At the EGM in Edinburgh in 2011, there was a decision to introduce a cap that stipulates that no single MO should contribute more than 50% of the European Contribution income of the Europe Region. However, no MO is currently above this threshold. Therefore, the introduction of this new cap based on membership figures will be complementing the existing one and will provide additional support and motivation for membership growth.</p> | | | | | |

| | <p>Noting that:</p> <ul style="list-style-type: none"> the document proposes that the European Voluntary Contribution that each Member Organisation should be requested to make in 2021 does not include the 2% increase originally voted on at the 16th European Conference due to the COVID-19 pandemic the document proposes that Member Organisations can request a 25% reduction on their 2021 EVC payment as a result of COVID-19 | | | | |

| | <p>Noting that:</p> <ul style="list-style-type: none"> as a result of the COVID-19 pandemic and existing uncertainties, we are not in a position to clearly provide a budget that looks forward to 2022 as well. Therefore, the budget for 2022 will be adopted at the EGM in 2021. | | | | |
