As a central theme in the global Girl Guiding and Girl Scouting Movement, volunteerism underpins the basis of our work. Read stories and articles from around the world on the theme of volunteerism and see if it inspires your thinking on how volunteerism is approached outside the Movement, and what we can learn and integrated into Guiding!

**The Benefits of Volunteering**

Here are five good reasons for seniors and caregivers alike to volunteer:

1. Find Meaning and Purpose at Any Age.
2. Experience Improved Health and Well-being.
4. Learn New Skills.
5. Know That You Can Make a Powerful Difference.

**NHS UK**

There's good evidence that volunteering brings benefits to both the person volunteering and the people and organisations they support.

In an attempt to measure the benefits on volunteers, Volunteering England commissioned the University of Wales to undertake a review of research on the subject. Dr Rachel Casiday, lecturer at the Department of Voluntary Sector Studies at the University of Wales, Lampeter, led the review.

“Peer support doesn’t just work one way,” says Dr Casiday. “Even if you’re in a mentoring role, simply talking to someone else who is struggling with the same issue can support you as well. It’s not just an act of charity. In a lot of cases, the volunteer is helped as much as the patient.” Dr Rachel Casiday.

**TED Talks on Volunteering**

- **TEDxNASA - Ben Rigby - Micro-Volunteering - Giving Back for Busy People**

In a unique approach to voluntarism, Ben Rigby has taken the time element out of doing good works. For the past 15 years, he has focused his efforts on developing youth-focused Web and mobile phone software for non-profits and brand-name companies. In 2008, he co-founded The Extraordinaries, the micro-volunteering network that allows people to volunteer on-demand and on-the-spot using mobile phones and the Internet. Rigby’s group is part of a new movement that combines tiny technology and huge social goals. He is the author of Mobilizing Generation 2.0, a handbook that promotes using virtual technologies to recruit, organize and engage youth. It’s all part of the micro world. What began with microscopes and microbiology has morphed into microeverything: microchips, microhousing, microjobs. And now: microvolunteerism.

- **The future of volunteerism | Richard Dictus | TEDxBonn**

This talk was given at a local TEDx event, produced independently of the TED Conferences. Richard Dictus talks about how the International Volunteering programme of the United Nations can help facilitate change, inspire and equip young professionals for their career at the global level.
