World Thinking Day Activity Pack – Graphic Design Brief

What is World Thinking Day?
It has been a day of international friendship since 1926. Every year on the 22nd of February, Girl Guides and Girl Scouts join together to celebrate the Movement by connecting with each other, having fun, learning about issues that impact them, and raising funds for the 10 million Girl Guides and Girl Scouts around the world.

Audience: Girl Guide and Girl Scout Leaders from across our Membership in 152 countries.

Contract: 3 months (July-September) with opportunity to develop longer term partnership

Key Deliverables: (1) The graphic design of WAGGGs flagship activity pack (estimated 50 pages of layout in four languages) (2) Additional artwork and assets to promote the day.
Theme: From 2022-2024 the theme for World Thinking Day is Our World = Our Future. Over this period the activity pack has supported Girl Guides and Girl Scouts to become environmentally conscious leaders, practise leadership in their everyday lives and develop the skills they need to make change. Each year has built on this environmental theme and explored the links between the environment and other global concerns.

Educational Objectives:
This final year will help build a sense that together we can create a more prosperous future where all girls thrive in a sustainable world free of poverty. To achieve this we will develop a range of active, discussion and arts-based activities through which girls can:

- Learn about progress in alleviating climate change through inspiring stories and new technology which benefit all women and girls.
- Develop environmental life skills so that we are prepared for the challenges and opportunities of the future.
- Explore how we can positively contribute to the natural world in our lives.

Structure, Symbolism and Design of the Pack – Miku and the Changemakers
In this final year we will build on artwork and themes from the previous two years. In 2022, the pack was structured around six ‘change makers’ from around the world. In 2023, the pack followed the story of Miku’s quest with each chapter leading to new activities to choose from and Miku embarking on a ‘Walk the World’ challenge. Thousands of Girl Guides and Girl Scouts joined from February – April 2023 and cumulatively walked 167 million steps together! In 2024 we will revisit Miku’s character and the changemakers with Miku meeting many of them on her travels and directing participants to new activities depending on their interests.

After an introduction with information about World Thinking Day and a final instalment of Miku’s quest (short story) there will be a matrix of two sections and activity types to choose from followed by a final activity for all to complete:

<td>Discussion Based</td>

</table>

As the activity pack and finale is focused on ‘Our World, Our Future’ we think that an exciting theme for the pack could be ‘utopia’ with Miku travelling in a future luscious and ‘thriving’ world.

Deliverables:
- Creation of artwork based on 2024 theme and educational framework aligned with look and feel of previous two years packs - 2022 and 2023.
- Editorial design and layout of text into a (estimated 40 page A4 activity pack (InDesign and PDF format) Note that the layout needs to be simple and easily editable so it can be translated into multiple languages.
- Proofreading of content ensuring the correct original text is embedded.
- Creation of ‘print friendly’ black and white version of the activity pack.
- Creation of three additional packs in French, Spanish and Arabic (translated text will be sent to you separately)
